THE LUXURY ISSUE

PUNCH LIST

WATER MUSIC

Kohler's VibrAcoustic Underscore bath, right, takes a good, hot soak to the next level. The tub is equipped with a sound-therapy technology that employs acoustics, lighting, and vibration to create a state of relaxation. The sound quality is so high that the system can be used to play music throughout the bathroom. What's more, a Bluetooth option lets you stream music wirelessly (kohler.com).

VANISHING ACT

Bradco Kitchens & Baths has introduced the Slide N Hide counter system, left, a kitchen island with a hidden cooktop. Available in stainless steel, butcher block, and other materials, the counter slides over the cooktop, creating a seamless surface perfect for entertaining (bradco-kitchen.com).
